Career Objectives

IT fresher with hands-on knowledge of Angular and ASP.NET Core, eager to contribute to web development projects. Motivated to learn, adapt, and apply best practices in building responsive, secure, and user-friendly applications.

Work Experience

Fresher

Education

2023–2025	**Master of Computer Applications (MCA)**	First Division with Distinction (8.54 CGPA)
2020–2023	**B.Com (Honours)**	9.16 CGPA

Skills

- **Frontend:** Angular, HTML5, CSS, Bootstrap
- **Backend:** C#, ASP.NET Core MVC, ASP.NET Core Web API
- **Database / ORM:** Entity Framework Core (EF Core), Microsoft SQL Server
- **Core Competencies:** Problem-solving, Quick learner, Detail-oriented, Goal-driven

Projects

- **MirTechHub – Full-Stack E-Commerce Platform** - ⊡ ⚙
  - Built a full-stack e-commerce platform for selling digital products.
  - Designed a seamless user experience from product browsing to checkout.
  - Implemented a powerful admin dashboard to manage products, orders, and site settings.
  - Secured the application using JWT-based authentication for user and admin roles.
  - Developed RESTful APIs with efficient data handling using Entity Framework Core.
  - **Technologies Used:** Angular, Tailwind CSS, ASP.NET Core Web API, Entity Framework Core, MS SQL Server

- **Link Hub** - ⊡ ⚙
  - Developed a web portal that enables users to submit and share website URLs under specific categories.
  - Implemented an admin review system allowing approval or rejection of submitted links.
  - Designed a category-based structure for organized and easy browsing of approved links.
  - Promoted community-driven content management through user participation and admin moderation.
  - **Technologies Used:** Microsoft SQL Server, C#, Entity Framework Core, Bootstrap, ASP.NET Core MVC

- **Employee Management System (EMS)** - ⊡ ⚙
  - Developed a web-based application to manage employee records efficiently.
  - Implemented full CRUD operations for creating, viewing, updating, and deleting employee data.
  - Integrated server-side validation for accurate and reliable data entry.
  - Enabled dynamic country code loading from a JSON file.
  - Applied data validation for personal and employment details such as DOB, DOJ, and DOE.
  - **Technologies Used:** Microsoft SQL Server, C#, Entity Framework Core, Bootstrap, ASP.NET Core MVC

Certifications

- **Full Stack ASP.NET Core MVC Web Developer Coding Bootcamp** ⊡
  @ManzoorTheTrainer Institute

- **MTT Certified Microsoft SQL Developer** ⊡
  @ManzoorTheTrainer Institute

- **Foundational C# with Microsoft** ⊡
  @freeCodeCamp
